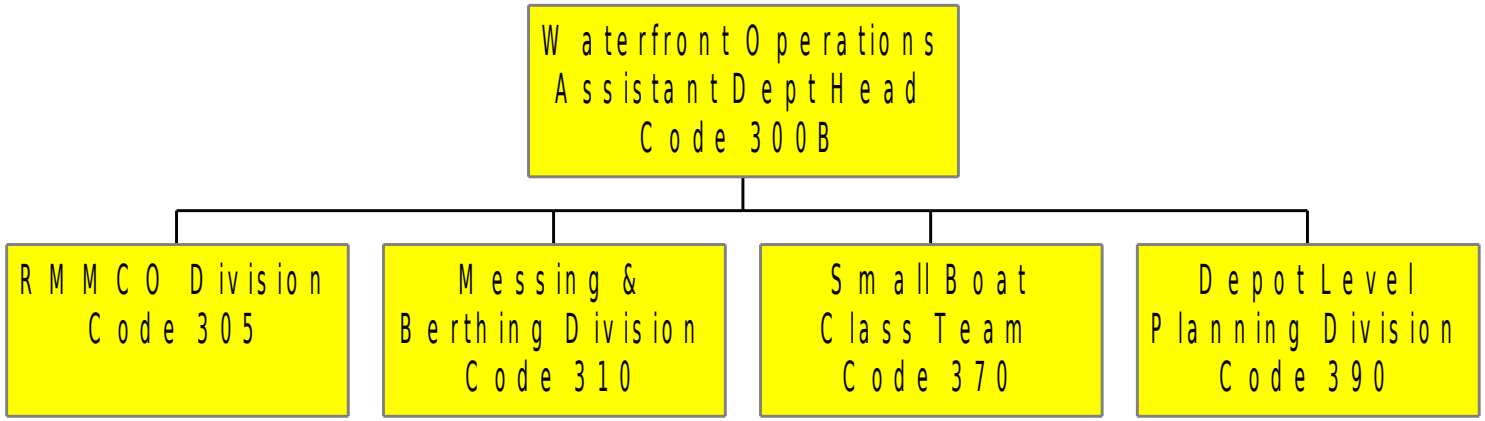
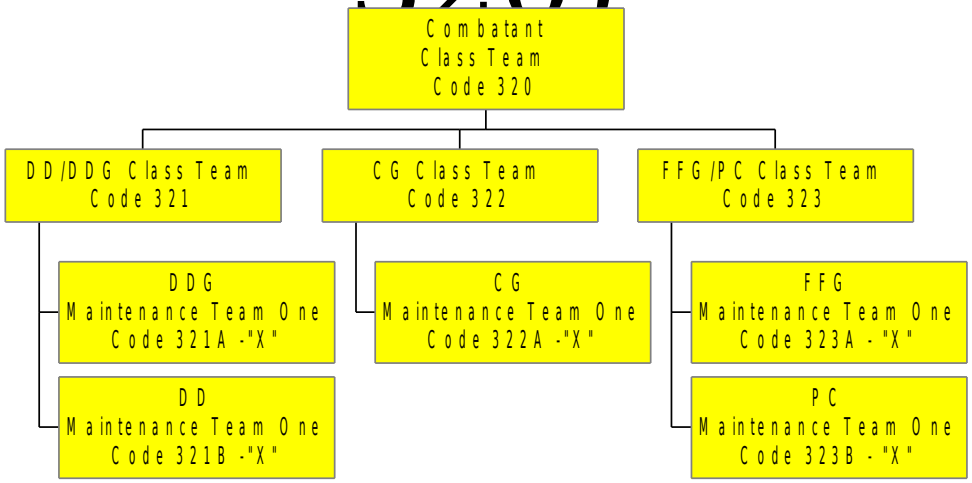
CG Class Team Code 322
FFG /PC Class Team Code 323
OSH Program Branch Code 341
Environmental Safety Program Branch Code 342
RMC Commander

Waterfront Operations (Various Codes)



Waterfront Operations Combatant Class (Code 320)



Combatant Class Team Code 320
DD/DDG Class Team Code 321
CG Class Team Code 322
FFG/PC Class Team Code 323
DDG Maintenance Team One Code 321A -"X"
DD Maintenance Team One Code 321B -"X"
CG Maintenance Team One Code 322A -"X"
FFG Maintenance Team One Code 323A - "X"
PC Maintenance Team One Code 323B - "X"

Maintenance Team Blocks are representative.

RMCs will populate sufficient maintenance team blocks to support homeported ships. Maintenance Team numbers for each class of ship will begin with "One" and go sequentially until all requirements for the port are met.

Maintenance Team Codes will be the 3-digit division number followed by an alpha character beginning with "A" ending sequentially with last alpha character required.

Do not use letter "O" for any Maintenance Team Code.

Waterfront Operations
Amphibs and Auxiliaries (Codes 315 & 330)

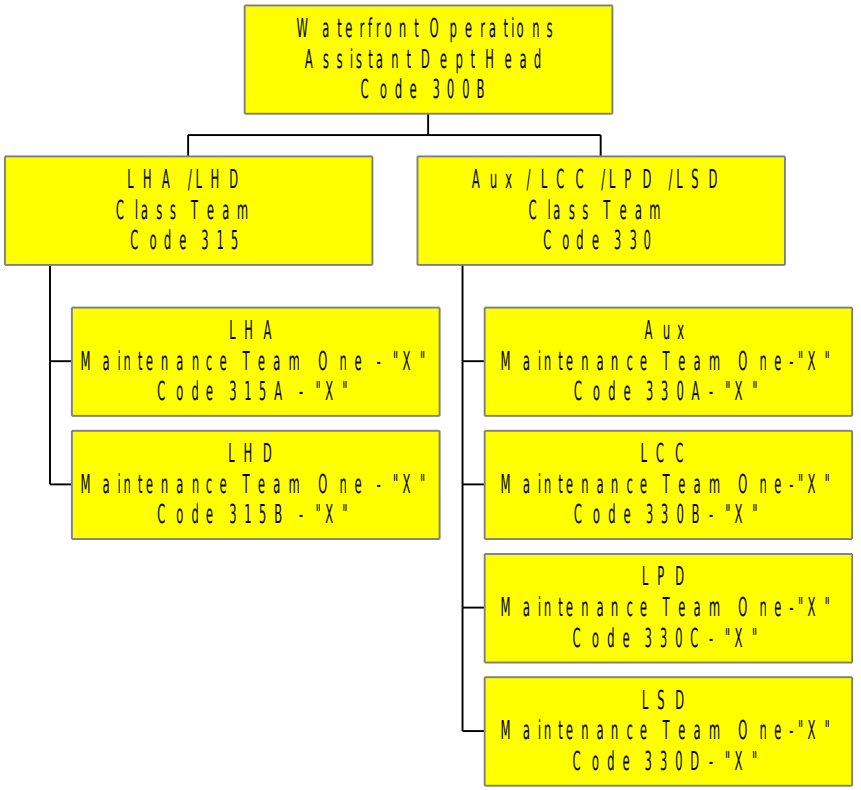
Maintenance Team Blocks are representative.

RMCs will populate sufficient maintenance team blocks to support homeported ships. Maintenance Team numbers for each class of ship will begin with “One” and go sequentially until all requirements for the port are met.

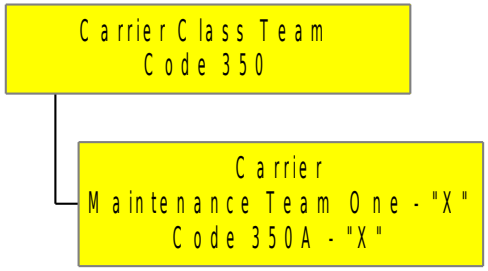
Maintenance Team Codes will be the 3-digit division number followed by an alpha character beginning with “A” ending sequentially with last alpha character required.

Do not use letter “O” for any Maintenance team Code.

NOTE: Auxiliary Maintenance Team Block will be used for any ship classes not otherwise specifically identified in these charts.



Waterfront Operations Carrier (Code 350)



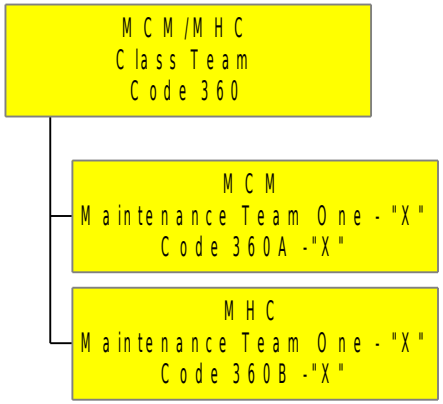
Maintenance Team Blocks are representative.

RMCs will populate sufficient maintenance team blocks to support homeported ships. Maintenance Team numbers for each class of ship will begin with "One" and go sequentially until all requirements for the port are met.

Maintenance Team Codes will be the 3-digit division number followed by an alpha character beginning with "A" ending sequentially with last alpha character required.

Do not use letter "O" for any Maintenance Team Code.

Waterfront Operations MCM / MHC (Code 360)



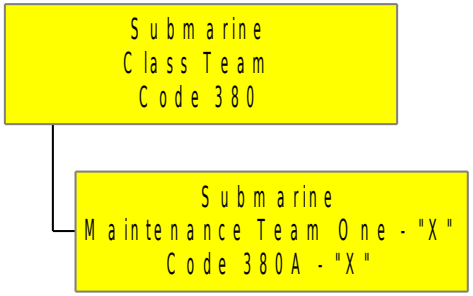
Maintenance Team Blocks are representative.

RMCs will populate sufficient maintenance team blocks to support homeported ships. Maintenance Team numbers for each class of ship will begin with "One" and go sequentially until all requirements for the port are met.

Maintenance Team Codes will be the 3-digit division number followed by an alpha character beginning with "A" ending sequentially with last alpha character required.

Do not use letter "O" for any Maintenance Team Code.

Waterfront Operations Submarines (Code 380)



Maintenance Team Blocks are representative.

RMCs will populate sufficient maintenance team blocks to support homeported submarines. Maintenance Team numbers will begin with "One" and go sequentially until all requirements for the port are met.

Maintenance Team Codes will be the 3-digit division number followed by an alpha character beginning with "A" ending sequentially with last alpha character required.

Do not use letter "O" for any Maintenance Team Code.

Sub Services Contracts Code 925B
Sub Depot & SHIPALT/A&I Support Code 925C

Note: For those work centers which have "@ MARMC C93XX" noted on the last line, this means that a separate NEMAIS work center needs to be established for MARMC that will contain several personnel who work for the Code 93XX work center. These Code 93XX work centers will have a "dotted line" relationship to Code 923C. This allows for less overhead, an advantage of co-location in
